
GENERAL MANAGER MESSAGE

Dear Members,

As we welcome June and approach the midpoint of the year, we also look forward to the arrival of the Tuen Ng Festival. On behalf of Hong Kong Marina, I extend my warmest wishes to you and your families for a joyful and peaceful festive season.

We extend our sincere thanks to all members who have updated their contact and vessel information. These updates are essential to ensuring that all vessels berthed at Hong Kong Marina are properly recorded and remain fully compliant. The Management Office has also prepared revised application forms for members wishing to apply for new berthing facilities or to register a change of vessel. Members are kindly requested to complete and return the relevant form with all required details before proceeding. Should you require further information or have not yet submitted your form, please contact the Management Office for assistance.

General Updates

We are pleased to share that the Hong Kong Marina website is currently under development and is scheduled to launch in June 2026. We trust that this new platform will strengthen communication with members and provide friends of the marina with easier access to the latest news and updates. Members are also reminded to collect their new car parking label and to bring the current label for exchange. If you need to update your vehicle registration number, please contact the Management Office.

Berthing Facilities

In May, we completed the replacement of the main power supply cables serving Jetty C. We thank members for their patience, support, and understanding throughout the course of these works. Upgrades to the remaining jetties, including Jetty D, will continue in phases. As part of our ongoing commitment to safety, members are kindly reminded to ensure that all shore power cables remain in good condition. We will continue to provide updates on future enhancement projects as they progress.

Improvement works to the berthing facilities, including wooden fender replacement and high-pressure deep cleaning, are currently in progress. Members are also kindly reminded to keep the area beside each dock box tidy and to store accessories inside the dock box after use, helping to maintain a safe and orderly environment for all. As typhoon season approaches, please note that all safety equipment is inspected annually in advance of the season, and members are encouraged to remain attentive to changing weather conditions.

Restaurant – The Terrace

We hope members have been enjoying the new coffee machine and our selection of premium coffee beans. If you have not yet had the opportunity to try them, we warmly invite you to visit at your convenience. We are also pleased to announce that, from 1st July 2026, the restaurant will operate seven days a week. Members are welcome to invite friends to enjoy the setting, and we look forward to introducing a new menu in July.

A number of improvement works are also being carried out in the restaurant and balcony areas to create a more comfortable and welcoming environment for all members. We appreciate your patience when these works are visible and will make every effort to keep disruption to a minimum.

Thank you once again for your continued support of Hong Kong Marina. Should you have any questions or require assistance, please feel free to contact me directly at any time.

Yours sincerely,

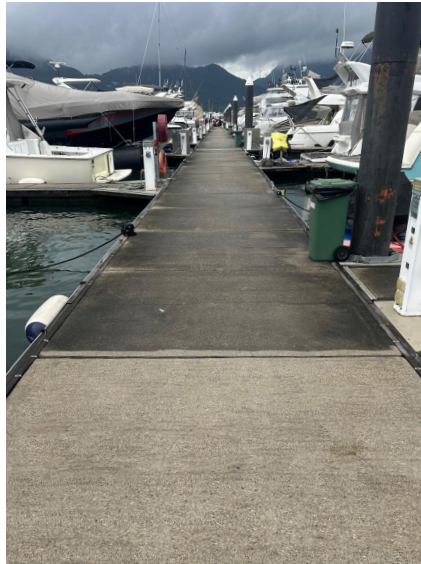

Billy Ng
General Manager
Hong Kong Marina Limited

MARINA FACILITIES UPDATES

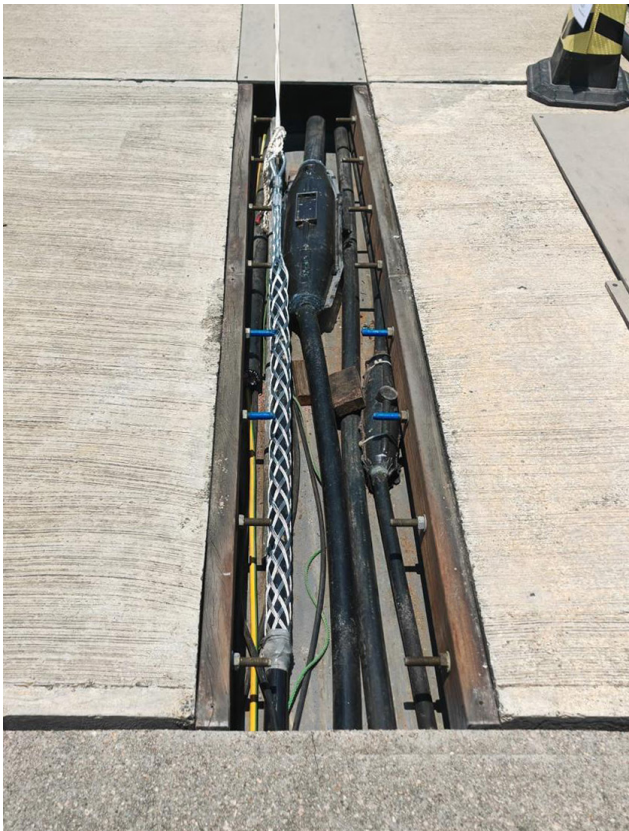

After high-pressure deep cleaning

High-pressure deep cleaning is currently in progress, some sections are now complete, with more areas currently underway.
